

Stage Plot Example

Band Name

This is an example of an acceptable stage plot scanned and uploaded. The better the information provided, the better the service our team can give you.

If you have any special sound/set up requirements, and are using the in house sound engineer, please list any sound or mixing requirements that you have and be sure to make contact with the sound engineer before the show. It is also a good idea to arrive well before your set up time to introduce yourself to the stage manager and sound tech to discuss set up and mixing requirements.
